

Moving on

By Suzy Davies

intro (All) So we're coming to the end of a chapter,
Soon we'll be exploring pastures new.
We've had good times and bad times,
Glad times and sad times,
Rainy days and skies of blue.

verse 1 We've grown up, settled down,
Fitted in, fallen out,
Learned some lessons too.
And no matter where life takes us,
We're sure to make mistakes,
But there'll always be a way of getting through.

pre-chorus **And we shouldn't be afraid of change, 'cause nothing ever stays the same for long,**
If we never meet again, my friend, I hope you reach your rainbow's end,
Hold your head up high, stay strong, 'cause now it's time for moving on.

chorus **I wish you clear roads, bold adventures, lasting friendships close and true,**
As we leave the past behind us, let's hope tomorrow finds us
Right where we belong,
'Cause now it's time for moving on.

verse 2 We're all heading for a happy ever after,
Though, at times, the going gets rough.
Be confident you'll make it,
If you don't feel it, fake it,
No-one ever won by giving up.

pre-chorus **And we shouldn't be afraid of change...**

chorus **I wish you clear roads, bold adventures, lasting friendships, close and true,**
As we leave the past behind us, let's hope tomorrow finds us
Right where we belong.

coda And if this should be our farewell song: goodbye, good luck, so long!
Hold your head up high, stay strong,
(Part 1) 'Cause now it's time, (Part 2) *Now it's time,*
For moving on, *Moving on,*
For moving on, *Moving on,*
(All) We're moving on.
